<Remarks>

① Evaluation should be made on an absolute basis (rather than in comparison with the other team).

② Please mark the evaluation sheets clearly, by circling the score for each item. You may award half-points, such as giving a score of 2.5 or 3.5 for an item. You do not need to add up the total points.

③ In evaluating the team's performance, take into consideration the composition of the team (i.e., whether it is composed of undergraduate students or graduate students). If the team's performance meets the judge's expectations for a team of that level, a score of 3 should be awarded. (If it exceeds that level, the score should be 4; if it greatly exceeds it, 5; if it falls below that level, 2; and if it falls far below that level, 1.) Please remember please that "3:Good" is for average performances, in other words, 3 is the baseline. If the team includes members with experience in business or legal practice, please hold the team to a higher standard.

④ Evaluations should be made by each judge independently. However, to ensure accuracy and fairness, we ask that judges share their views on the scores with each other prior to submitting the evaluation sheets.
